Acceleration	30G
Weight	48 Grams w/o cable
Max DPI	12400
Lowest DPI	200
Polling Rate	1000
Cable Length	1.5m Paracord
Mouse Feet Type	PTFE
Mouse Feet Thickness	0.6MM
Sensor	3327
Switch Type	Huano 20M
Surface	ABS

## FEATURES

**Ergonomic Design:** Crafted with a contoured shape that fits naturally in your hand, the mouse is ergonomically designed to reduce fatigue during extended gaming sessions. Its sculpted form provides a comfortable grip and precise control, enhancing your gaming experience.

**Software Support:** Customize every aspect of your gaming experience with intuitive software compatible with Windows OS. From fine-tuning mouse settings to creating complex macros, the software empowers you to personalise your gameplay to perfection.

**Paracord Cable:** Featuring a lightweight paracord cable, the mouse offers the freedom of movement akin to wireless devices, ensuring smooth gliding and minimal drag for unhindered gameplay.

**Customizable DPI:** Tailor sensitivity to your preference with adjustable DPI levels ranging from 200 to 12400, easily configured through the software. This flexibility allows for precise aiming and swift cursor movements, ideal for various gaming genres.

**20Mn Switches:** Built to withstand intense gaming sessions, Huano gaming switches provide a durable lifespan of 20 million clicks. Each click is responsive and consistent, maintaining peak performance over extended use.

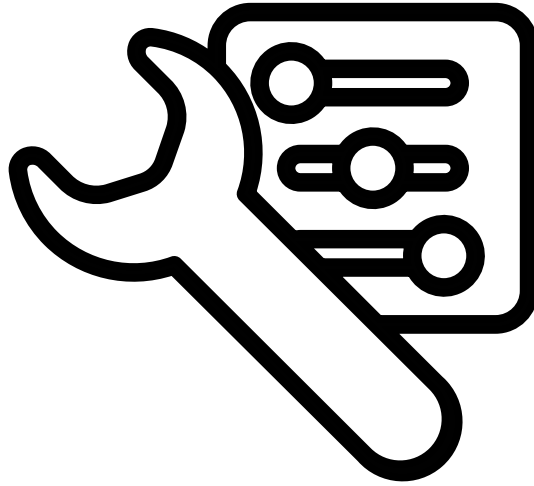

**Wheel Light:** Instantly visualize DPI settings with a wheel that dynamically changes colors based on selected DPI levels. This feature not only adds flair but also offers quick recognition of your current sensitivity setting.

**1000Hz Polling Rate:** Boasting a 1000Hz polling rate, the mouse ensures rapid communication between your movements and the PC, translating into seamless responsiveness crucial for competitive gaming.

## STEPS TO CONNECT TO PC

1. Unpack the mouse from the packaging and remove the plastic film from the mouse's feet, if any.
2. Connect the mouse to the PC using the USB cable.
3. The mouse will be detected by Windows within 5-30 seconds.
4. Download the software for the mouse from the Cosmic Byte website.
5. Install the software (Note: Some antivirus may try to stop installation as software would not be updated in their database, so disable antivirus before installation)
6. Once installed restart your PC.
7. Your mouse is now ready for use. You can customize the functions of the mouse using the software

# TROUBLESHOOTING

## 1. Unable to detect mouse on PC

**Ans:** Try connecting the mouse on a different USB port on the PC.

Try connecting the mouse directly on the motherboard USB port of the PC.

Connect the mouse to the extension adapter supplied.

## 2. Software does not detect the mouse.

**Ans:** Kindly uninstall all other mouse software previously installed on the PC.

Restart the PC, unplug the Mouse and reinsert it again.
