FEATURES

Customisable RGB—The software allows you to customise the RGB effects with 12 modes. When connected to the PC, you can see a honeycomb texture on the left and right buttons.

Software Support—Customize all the mouse settings, macros, RGB, and other functions using software compatible with Windows OS.

Paracord Cable- Paracord cable is extremely lightweight, which makes the mouse feel like a wireless mouse.

Customisable DPI- Set different DPI levels from 200-12400 using the software.

20Mn Switches- The Pulse Mouse is equipped with Huano gaming switches, known for their exceptional durability. With a lifespan of 20mn, these switches ensure your gaming companion will last for a long time, providing you with a reliable gaming experience.

1000Hz Polling Rate- The Pulse Mouse features a thrillingly high polling rate of 1000Hz. This determines the speed of the connection between the PC and the mouse, ensuring an exhilaratingly responsive gaming experience for our passionate gamers.

STEPS TO CONNECT TO PC

1. Unpack the mouse from the packaging and remove the plastic film from the mouse's feet, if any.
2. Connect the mouse to the PC using the USB cable.
3. The mouse will be detected by Windows within 5-30 seconds.
4. Download the software for the mouse from the Cosmic Byte website.
5. Install the software (Note: Some antivirus may try to stop installation as software would not be updated in their database, so disable antivirus before installation)
6. Once installed restart your PC.
7. Your mouse is now ready for use. You can customize the functions of the mouse using the software

TROUBLESHOOTING

1. Unable to detect mouse on PC

Ans: Try connecting the mouse on a different USB port on the PC.

Try connecting the mouse directly on the motherboard USB port of the PC.

Connect the mouse to the extension adapter supplied.

2. Software does not detect the mouse.

Ans: Kindly uninstall all other mouse software previously installed on the PC.

Restart the PC, unplug the Mouse and reinsert it again.
