- SYSTEM REQUIREMENTS: Windows 8 and above.

## ● Steps to Connect to PC

1. Unpack the mouse from the packaging and remove the plastic film from the mouse feet if any.
2. Connect the mouse to the PC using the USB C to USB A cable and charge the mouse for use. Once charged disconnect the cable and insert the wireless dongle stored in the mouse compartment to the PC USB port.
3. The mouse will be detected by Windows within 5-30 seconds.
4. Download the software for the mouse from the Cosmic Byte website.
5. Install the software (Note: Some antivirus may try to stop installation as software would not be updated in their database, so disable antivirus before installation)
6. Once installed restart your PC.
7. Your mouse is now ready for use. You can customize the functions of the mouse using the software

## ● Change the Mouse Top Cover and Side Buttons

- Your Cosmic Byte mouse comes with replaceable top cover and side buttons.
- The top cover and side buttons are attached to the mouse using magnets. To replace it just pull the top cover or side buttons from the mouse and replace it with the optional cover and buttons.

## Troubleshooting

### 1. Unable to detect mouse on PC

**Ans:** Try connecting the mouse on a different USB port on the PC.  
Try connecting the mouse directly on the motherboard USB port of the PC.  
Connect the mouse to the extension adapter supplied.

### 2. Software does not detect the mouse.

**Ans:** Kindly uninstall all other mouse software previously installed on the PC.  
Restart the PC, unplug the Mouse and reinsert it again.
