## STEPS TO CONNECT TO PC

1. Unpack the mouse from the packaging and remove the plastic film from the mouse feet if any.
2. Connect the mouse to the PC using the USB port on the backside of the PC.
3. The mouse will be detected by Windows within 5-30 seconds.
4. Download the software for the mouse from the Cosmic Byte website.
5. Install the software (Note: Some antivirus may try to stop installation as software would not be updated in their database, so disable antivirus before installation)
6. Once installed restart your PC.
7. Your mouse is now ready for use. You can customize the functions of the mouse using the software

# TROUBLESHOOTING

## 1. Unable to detect mouse on PC

**Ans:** Try connecting the mouse on a different USB port on the PC.

Try connecting the mouse directly on the motherboard USB port of the PC.

Avoid using extension hubs.

## 2. Software does not detect the mouse.

**Ans:** Kindly uninstall all other mouse software previously installed on the PC.

Restart the PC, unplug the Mouse and reinsert it again.
